

## **Booklet on the FNEEQ's 2013 modular insurance plan**

Our updated documentation on the modular insurance plan is now available, with the new terms and conditions.

Printouts of the *application form* and *coverage summary* are available in English and French and can be obtained from employers (who give them to new participants). Two versions of the *application form* are available: one for public colleges and one for private colleges and universities. The two versions of the *application form* and *coverage summary* are also available in PDF format.

The *Booklet* is available only in PDF, in English and French. A limited number of copies will nonetheless be printed for unions and employers, for administrative purposes.

New participants now receive the *coverage summary* instead of the *Booklet*. This signals an end to the practice of systematically giving a printed booklet to each participant when she or he applied and when key information was updated. As well as helping to reduce our environmental footprint, this new approach guarantees access to more up-to-date information. In addition, the overview provided by the *coverage summary* highlights the essential information and provides a better information-awareness tool for participants.

These on-line documents in PDF and a number of other helpful documents are found on the group insurance page of our web site

([http://www.fneeq.qc.ca/fr/comites/assurances/Assurances\\_collectives](http://www.fneeq.qc.ca/fr/comites/assurances/Assurances_collectives)) and on the La Capitale web site, on the page reserved for the FNEEQ

(<http://www.lacapitale.com/fr/particuliers/assurances/assurance-collective/informations-assures/fneeq>).
