

As you may know, all Dawson teachers will be on strike from **noon on May 11th until noon on May 13th**, along with our colleagues across Quebec. During the 48 hours of the strike, teachers will not hold classes, evaluations, or office hours, nor will they answer emails or MIOs.

As teachers, we are committed to our students and their learning, so we do not take this decision lightly, but we are left with little option in the face of stalled negotiations and broken promises from the Government. We are demanding better working conditions (especially for Continuing Education teachers!) and better learning conditions for students.

We encourage you to contact your Sector Dean with any questions or comments you have regarding the impact of the strike - or even just to express your support for your teachers!
